○ 3D ANIMATOR

REALPAGE INDIA PVT. LTD. (June 2017 - June 2020)

- Developed interactive web interfaces using HTML5, CSS, and JavaScript to enhance user engagement.
 - Collaborated with developers to create visually appealing and user-friendly web applications.
 - Integrated 3D animations into websites, enriching the user experience with dynamic visual elements.
 - Utilized tools like Blender and Unity to create and implement 3D animations and graphics for web projects.
 - Created virtual tours of interiors using Pano2VR, allowing clients to explore spaces through AWS S3 hosted links.
-

● AWARDS & ACHIEVEMENTS

○ Spot Recognition for Quality and Production

April 2019

- Awarded for exceptional quality and high production levels
- Consistently met project deadlines while maintaining quality standards.
- This recognition reflects dedication to delivering high-quality results under pressure.

○ Spot Recognition for Developing PowerShell Scripts

June 2019

- Awarded for developing PowerShell scripts that organized project files according to the designated folder structure, facilitating efficient management for QA and business teams.
- These scripts contributed to a significant decrease in Turnaround Time (TAT) for each interior floorplan, streamlining the process and reducing the need for manual file management.
- By automating file organization, these scripts enhanced productivity and accuracy, enabling teams to focus on higher-value tasks and improving overall project efficiency.

○ Star of the Month Nominee

Nominated Twice (June & December 2019)

- June - Nominated for exceptional performance and contributions to the team.
 - December - Demonstrated commitment by taking on additional responsibilities and helping teammates with complex tasks.
 - These nominations were the result of continuous effort and contributions to the overall success of projects, showcasing a proactive and collaborative approach.
-
